THE DAILY GAZETTE.

Has increased its circulation twenty-five per cent during the past year. As an advertising medium it is recognized as reliable and effective.

THE WEEKLY GAZETTE is without a rival in the county. The rates of advertising are always based upon circulation. If you have anything to say to the people of the city or county you can speak to more of them through the columns of the GAZETTE than through any other medium published in the same territory.

WE DON'T DOUBT IT.

The bells are still ringing. The poets are still singing. Of nothing but beautiful snow. The winds are still waiting. The signs are still waiting. That winter's still here don't know.

SIDEWALKS.

—The cut-off is out off.
—Will the Salvation Army bequeathed?
—This is a good time to clean sidewalks.

—Where are you going to spend your summer vacation?
—This evening Anderson's orchestra will play at Lake Geneva.

—Regular meeting National Union this evening, at Temple of Honor Hall.
—And still the demand for shares in the Building and Loan Association keeps up undiminished.

—An adjourned meeting of the common council will be held to-morrow evening to consider water works.
—W. E. Sargent Post No. 20, G. A. R., assemblies in regular semi-monthly meeting this evening at Post Headquarters.

—The Young Ladies Missionary Society of the Baptist church, meet Saturday afternoon at 3:30 o'clock, with Miss Mary Crosby.

—The weather clerk's prediction, yesterday afternoon, that we would have "changeable weather, with some snow," was entirely fulfilled.

—There will be quite a party of Janesville young people at the dancing party given at Mr. John Decker's home on Milton avenue this evening.

—Peter Myers is suffering from the effects of a fall by which he received several cuts about the head, narrowly escaping the loss of an eye.

—At the Congregational church Sunday evening Rev. H. A. Miner will give as his second lecture to young people, "Moral Perils and How to Escape them."

—By some remarkable combination of circumstances there was a man shoveling off the Milwaukee street bridge to-day before the snow had all been tramped down.

—To-day Mr. Charles Tarrant is feeling somewhat easier. He is kept partially under the influence of morphine, as the pain from his shoulder and side is very great.

—People's Lodge No. 460, Independent Order of Good Templars, assemble in regular weekly session this evening—lodge room in the Court Street M. E. church block.

—Just too late to make it useful, comes the suggestion that the slippery streets might be improved by loading a sprinkling wagon with coal ashes and turning it loose.

—A notice has been sent out by G. B. Conrad, assignee of F. S. Lawrence & Co., that all accounts against the firm must be sent in within three months, or no allowance will be made for them.

—The Chautauque Circle will meet on Monday evening, fifteen minutes past seven. One half of the questions will be on "Astronomy" and "The Early Church" in the February Chautauquan. An interesting program is prepared.

—The Ladies' Society of the First Presbyterian church, will have one of their pleasant socials on Friday evening of this week, at the house of the pastor, corner of North Jackson and Madison streets. The social committee of the Y. P. C. E. society will provide a program. All are welcome.

—This morning a petition was started by some of the west side business men asking Mayor Winans to use his authority to prevent the disturbance incident to parade of the Salvation Army. The complaint was that trade was affected by the demonstrations, to a very noticeable extent. Patrons of stores on the line of march were afraid to leave their homes in the evenings and went to establishments where there was less danger. Because of this the request for official interference was made, the petition being signed first by those doing business near the "baracks."

—Railroad men wore up this morning with the idea that they had jumped from the trying plan into the fire. The high water had gone down but instead here was another visitation that seemed likely to make almost as much trouble as the freshet had. For a time snow fell rapidly and drifted into the cuts at a rate that gave promise of blockades and plowing matches. During the forenoon it cleared up but the Evansville cut off was snowed under and the C. M. & St. P. road was not much better. The train from Rockford found considerable trouble in coming through, not reaching here until 2:15 in the afternoon, instead of 9:40 in the morning.

STRICKEN WITH PARALYSIS.

Mrs. Mary Dearborn now lying at the Point of Death.

Last evening the family of Mrs. Mary A. Dearborn, of the third ward, noticed that she was feeling unwell and sent for a physician. It was not thought, at the time, that her illness was anything serious and when she retired she seemed to be much more comfortable. This morning when her son-in-law, Mr. D. W. Watt, came down stairs he saw that she was sitting in an arm chair near the stove and spoke to her but received no response. Throwing up the window curtain, he was astonished to find that she was insensible. The physician, who was at once called, saw that she had been stricken by paralysis after coming down stairs from her bed room during the night. This afternoon she is still speechless, her left side being completely paralyzed, and fears are entertained that she will not recover.

Don't be humbugged into buying a poor porous plaster. Ask for "Pomroy's Petrolina Plaster." Pretentious & Evenson, opposite postoffice.

For good lively turnouts go to Dunwiddie & Humphrey's!

D. Conger has money to loan.

THE WATER WORKS.

Synopsis of the Proposition Proposed by the Council Committee for the Construction of the Plant.

The City Demands are Such that No Private Company Will Accept.

And Yet it is Made Necessary to Protect the People.

The special committee of the common council to whom the different propositions of private companies to construct water works in this city were referred held a meeting last evening to formulate a contract embracing the points the city would demand from a private company in the construction of the proposed plant. All the members of the committee—Ald. T. T. O'roff, J. A. Fathers, W. H. Judd, Chas. H. Carpenter, C. C. McLean and City Attorney (C. E. Pierce) were present. The meeting was held at the office of Dr. W. H. Judd.

The ordinances presented at the last meeting of the council by Turner, Clark & Rawson, of Boston, and by Samuel R. Bullock & Co., of New York, were carefully considered. The committee then considered a contract and an ordinance drawn by the city attorney, after consulting with Mayor Winans. This document is quite lengthy, covering over twenty-six pages of closely written legal text, and embraces all the details of a first class water works plant. The following is a synopsis of the document without reference to the different sections: It provides that the company accepting the same shall provide the city with pure wholesome water for fire protection, for domestic uses, public schools, churches, public buildings and offices, engine houses, public parks, three fountains, five drinking fountains, for flushing sewers and gutters, etc., and for other public uses, and for business and manufacturing purposes, for a period of twenty years. The city gives the company the right to enter upon all the streets, alleys or public grounds in the city to lay pipes and erect hydrants, the work to be completed and put in operation within one year after signing or accepting this contract. The works shall consist of a reservoir above the level or grade of the street at the corner of Main and Milwaukee streets, with a capacity of not less than 5,000,000 gallons; two engines with a capacity of not less than 2,000,000 gallons each, and an easy working capacity of not less than 5,000,000 gallons in 24 hours; three boilers with a capacity double that required; the machinery to be in a fire proof building, the reservoir to be connected by an electric or pneumatic valve, in order to change instantly to direct pressure if so desired; all the materials used to be of the very best quality, and only persons of known skill shall be employed to superintend the construction; the laborers of the city of Janesville to have the preference in employment. The pipe used shall be of the best cast iron, coated inside and out with best coal tar varnish; Dr. Angus Smith's coal tar varnish; the hydrants to be of the best pattern, double-nozzle, anti-freezing, to fit the hose now in service of the fire department; the main pipe to be not less than 6 inches internal diameter; 170 fire hydrants; all extra hydrants on the 13 miles of mains to be supplied by the city, the company to furnish with water free; all to be supplied with the necessary valves, cut-offs, gates, etc.; necessary in a first class water works plant. The supply of water is to be taken from artesian wells, the water to come from the Potsdam sandstone, the pipe to be packed to prevent the water from layers above entering the wells. The plant, when completed, shall be capable of throwing ten simultaneous streams of water through 100 feet of hose—1 inch nozzle—100 feet high, the hose to be attached to ten different hydrants; also six simultaneous fire streams through 800 feet of hose, 1 inch nozzle, upon the roof of any building in the city. The pipe to be laid at least six feet below the street grade; all streets to be placed in as good condition by the company as before being disturbed for pipe laying; the company to indemnify the city for all expenses and damages incurred by reason of the construction of the plant; the company to be able and furnish upon every alarm of fire the streams called for in the fire; water to be furnished consumers at prices named in the contract or less, without any discriminations; the company to keep all hydrants in repair, any neglect for the space of ten days may result in forfeiture, or the city may repair them at the expense of the company; the company to file a statement of the cost of the works with the city clerk and the city to have the right to purchase at any time after five years at actual cost plus 6 per cent. The company is to give the city a \$25,000 bond, with sureties residing in the state, conditioned on the faithful performance of the contract, its faithful performance to be first seen upon the franchise, and the city to appoint an engineer to examine material before put in. If the company taking the contract shall fail or willfully misrepresent the cost of the works, or willfully cut to defeat the established rates, or bond the works for more than cost, then the council to declare the contract void. Additional hydrants are only to be taken when the council orders the extensions of mains and then only to ever 500 feet. The free list furnishes churches, school houses, engine houses, public offices, fire drinking fountains, three ornamental fountains and water for parks and for flushing sewers and gutters.

The clause giving the city the first lien on the works, and that giving the city the right to purchase at any time after five years, will be objected to by all private companies, as interfering with their financial negotiations; other restrictions will have to be more or less modified in order to secure its acceptance by a responsible company. We understand the report will be made to the council to-morrow evening, the committee being unanimous in favor of its adoption as it now reads.

Our entire stock of mastic underwear will be sold at a sacrifice. Every piece of these goods must be sold.

N. Y. SAVING STORE.

D. Conger has money to loan.

SELOIT BRIEFS.

Will Vates' Bakery to be Removed to Janesville—Other Items.

Yesterday afternoon Mr. Bill, of the town of Newark, while riding with a neighbor, was thrown out and dragged beneath the overturned sleigh, one leg being broken close to the thigh.

The great demand for the Vale bread has made another one necessary. It will be put in in the spring but Mr. Vale is undecided just where to locate it. Janesville is the most central point for his shipping trade which is large, but Seloit people hope that he will not remove any of his business from this city.

It is rumored that Mr. Zimmerman will soon be succeeded in the restaurant business by Mr. Gorlick.

The prohibitionists of Seloit have secured the services of Volney E. Cushing, of Bangor, Maine, to deliver one of his popular lectures on Monday evening, February 14, at the Baptist church.

The young ladies of the 2nd Congregational Society, will give a reception to the young gentlemen of the Society of Christian Endeavor, this evening, at the house of Miss Bell Abbott.

City Marshal North has got it down fine. Whenever an old-time tramp comes along, and he wishes to get rid of him, and wants to transport him to Janesville, he goes to the train with his patient and gives him a pass which reads something like this: "Mr. Ward, please admit bearer, and keep him as long as you want him, and oblige."

U. F. N.

STEAM HEATING FOR CARS.

An Experimental Train Over the St. Paul—Another Engine Coupler.

Local railway men are discussing the proposed attempt of the Chicago, Milwaukee & St. Paul company to heat passenger cars by steam. Two roads in the east have for some time used steam in heating their cars and found it worked well. The St. Paul company is having built a train fitted up with appliances for heating in this manner, and will soon test the experiment. It is claimed that the cars can be heated quickly, and that in case of accident if the pipes should burst, the escaping steam would not be of such force as to scald or burn. The steam is conducted from the engine by means of pipes which pass beneath the platform of the cars and under the seats in coils. A flexible joint connects the pipes between cars, and in case of the latter becoming uncoupled the connection is broken and by an automatic valve the steam is shut off.

Another improvement that is being much discussed is to be introduced on the Wisconsin Central. This is an automatic draw head for freight cars. The pattern is such that brakemen need not go between the cars to couple or uncouple.

MARTIN IN JANESVILLE.

A Public Reception and Magnificent Reception of the Irish Captain.

JANESVILLE, Feb. 9.—John McCarthy, M. P., reached this city this afternoon from Chicago. He was met at the depot by a large delegation from three Irish societies and the Catholic band, and escorted to the residence of Rev. Father McGinlay, where a reception was held. He lectures here to-night for the cause of Ireland. There will be the largest attendance of all similar events ever known here.

The foregoing dispatch, which appeared in the Milwaukee Journal Wednesday evening, created considerable surprise among Janesville people. The Journal correspondent deserves great credit for making such a decided "scoop" on all the other dailies.

SOMETHING FROM LIFE.

Anti-Slavery Paper that had an Ex. perience Which Trenches a Lesson.

One of the editors of a Central Illinois daily was talking with a Janesville man the other day at Chicago. He had known him years ago while a resident of Wisconsin and several questions were asked as to business in the Illinois town.

"Well," the editor remarked, "after I had been running along for a while with a circulation of eleven hundred, the other local paper suddenly broke out with the 'booming fever.' It took a good deal of space and word out consideration head line type in proving that it had over seventeen hundred subscribers, and really seemed to be enjoying itself wonderfully. As it didn't hurt me any I let things go along without making any answer. My friends kept coming around and begging me to 'pitch in,' but I guess my way was the best. Anyway, just about two months ago my ambitious friend was chief mourner at his own father's funeral. The books showed that he hadn't had but three hundred subscribers at any time. I don't believe that it does very much good to blow. Its played-out wind-mill that makes the most noise."

Immense bargain in kid gloves—see the 4 button red kid glove at \$1. All the new embroidered black glove at the same price. A 5 button glove in new shades at 63 cents and a Foster black glove at 75c. Either of these lines are good values at \$1. Odds and ends of kid gloves at half cost to clear them out.

NEW YORK SAVING STORE.

THE WEATHER.

At seven o'clock this morning the thermometer indicated 10 degree above zero. Drifting snow storm—north wind. At one o'clock p. m., the register was 16 degrees above zero. Partly cloudy with north wind. For the corresponding years one year ago the register was 33 and 41 degrees above zero.

Handkerchief bargains for the million. A colored border H. S. linen handkerchief at 3c and better qualities at 10c, worth 15c and 20c. Extra fine linen and hand embroidered and mullers below cost. Don't fail to see these bargains before they are gone.

NEW YORK SAVING STORE.

How to Gain Flesh and Strength. Use after each meal Scott's Emulsion; it is as palatable as milk and easily digested. Delicate people improve rapidly with its use. For Consumption, Throat affections and Bronchitis it is unequalled. Dr. J. C. Trim, Ala., says: "I used Scott's Emulsion on a child eight months old; he gained four pounds in a month."

A long felt want is Fairbank's noted Laundry Soap. Go for it—at your grocer's.

SELOIT COLLEGE NOTES.

A Bankrupt Toboggan Slide—Fishery Debate—Janesville Highlights.

SELOIT, Feb. 11.—Another of our most grown customs has passed away. Hereafter instead of breaking in upon the students' Saturday rest to hold the dreary public toboggan slide, these cruel evils are to take place on Wednesday evenings.

The Athletic literary society will hold an open meeting to-night, the DeLia and Junta societies being present as visitors. The debate is on the fishery question.

Mr. H. F. Cunningham will entertain the members of the Sigma Chi fraternity—those emblem bearers—this evening, at his home in Janesville. A four-horse sleigh will be used to carry them.

The gymnasium, after a great many false alarms at last actually to be opened for regular exercise hours.

The old board of editors have made their bow, and the next edition of the Round Table will be brought out by new hands.

The toboggan slide is scarcely ever used now, in fact, owing somewhat to its situation, it has been almost a failure so far, this winter.

Washington's birthday will be celebrated by a lecture and appropriate exercises in the college chapel.

A few of the students attended Justin McCarthy's lecture (?) at Janesville Wednesday night.

The immense bargains in embroideries offered at the New York Saving Store, will be appreciated just now when such goods are most in demand. One hundred pieces—all new patterns at cost to close them out.

GOUGH FORTY-NINERS.

GET A FRESH GRIP ON THE THROAT OF CAPITAL.

An Indefinite Number of Thousands of Workmen Ordered to Quit—A Robust Doubt, However, of Prompt Obedience—How Things Look Along the Docks—An Early Morning Alarm.

New York, Feb. 11.—To any one who takes a walk along the docks, there is every appearance that the great strike of longshoremen has failed. The freight seems to be promptly loaded and unloaded, and talks with the employers confirm this view. They say the strike is over; they have all the men they want; and are not negotiating with the Knights of Labor or anybody else for the present. In fact they have no interest in the matter. If anybody is still interested in the strike, it is to keep up the talk of a strike that is its business, but the docks are manned nevertheless, and those who struck may hunt other work.

In Jersey city the striking freight handlers of the Erie railway made a raid upon pier 9 of the city's docks where 200 of the Italians who had taken their places there, and the dockers were driven from their place without much difficulty. With the exception of a few minor brawls here and there along the river front the new men are allowed to work in peace, although many of them are guarded by the police.

The dockers of New York ordered out Thursday by District assembly 49, N. Y., and are much dissatisfied with the order and will probably disobey it. They would willingly have gone out earlier in the strike, but they could not get the necessary money. The dockers were also ordered to go out at 4 a. m. Friday will not go out. Most of them are under pledge to serve a
